9/09/2025	3285		Trailer Service	Andrew Brandt
9/09/2025	Annual Inspection		Annual Inspection Completed	Andrew Brandt

Heavy Trailer Inspection Checklist

This checklist has been provided as a guide to the types of information that may need to be collected, or components that need to be inspected, during a vehicle inspection. This checklist is not a reason for rejection.

*These fields are not mandatory.

Registration #	257-QSZ	Owner's details	
Reason for inspection*	Annual Inspection	Inspection location*	Red road, Beerburum
Inspection date	09/09/2025	Make/model*	Drake Tri Axle
Inspection time*	3pm	Body type*	Low Loader
Registration expiry date*	25/03/2026	Main body colour*	White and Blue

Cross out those items not applicable.

Day: Tuesday Date: 09/09/2025

MCKENNA GROUP
PTY LTD

Vehicle/Trailer: Drake Tri Float	Rego: 257-QSZ	MCK Unit No.	Klms: N/A	Hours:
----------------------------------	---------------	--------------	-----------	--------

☐ A SERVICE CHECKLIST

☐ TRUCK (Approx 10,000km - 12,000km)

Check Fault Repair Log and carry out necessary repairs.	✓	Check brake system for leaks (service and maxi).	
Grease all lubrication points.		Drain condensation from air tanks.	
Lift cab/bonnet, grease pivots, check condition and tension of belts.		Check steering joints and linkages.	
Check power steering for fluid levels and leaks.		Inspect for any obvious faults in suspension, structure or bodywork.	
Check/top up engine oil and coolant level.		Visual check of airbag suspension where fitted.	
Check transmission and differential for fluid levels and leaks.		Inspect wheel nuts and wheels for security, tyres for tread and inflation.	
Check driveline and universal joints.		Check number plates, all labels for due date condition and security.	
Check all lights and reflectors.		Check for visible exhaust emissions and lack of engine power.	
Check horn, instruments, gauges, wipers and washers.		Fault #/s Rectified (If Applicable)	
Check battery terminals and security.			
Inspect brake lining wear/travel and adjust if required.			

☒ TRAILER (Approx 6 monthly/annually)

Grease all lubrication points.	✓	Inspect for any obvious faults in suspension, structure or bodywork.	✓
Inspect brake lining wear/travel and adjust if required.	✓	Visual check of airbag suspension where fitted.	✓
Check all lights and reflectors.	✓	Check number plates, and all labels due date, condition and security.	✓
Check condition of air lines and electrical cable.	✓	Re-torque all "U" bolts and cross members.	✓
Inspect wheel nuts and wheels for security, tyres for tread and inflation.	✓	Fault #/s Rectified (If Applicable)	✓
Change oil in oil filled wheel bearings and check other wheel bearings.	✓		

Notes:

☐ B SERVICE CHECKLIST Including items from Checklist A

☐ TRUCK (Approx 20,000km)

All components of "X" Service.		Check wear/movement in pitman arm, drag arm, tie rods and spring shackles.	✓
Change engine oil and filters.		Replace or clean air cleaner as required.	
Change fuel filters and bleed and check for leaks.		Check trailer breakaway and maxi system.	
Test coolant and change water filters if required.			
Check battery electrolyte level, terminals and security.			
Check clutch linkage, clutch brake operation and adjustment.		Fault #/s Rectified (If Applicable)	
Check front steering hub oil level.			

☐ C SERVICE CHECKLIST Including items from Checklist A and B

☐ TRUCK (Approx 200,000kms or annually)

All components of "X" and "B" Services.		Change PTO Hydraulic filters.	
Change power steering oil and filter.		Service air dryers where applicable.	
Change transmission oil and filter (300,000km for Synthetic Oil).		Re-torque all "U" bolts and cross members.	
Change differential oil and filter.		Fault #/s Rectified (If Applicable)	
Change oil in oil filled wheel bearings and check other wheel bearings.			
Check clutch linkage, clutch brake operation and adjustment.			

The person completing the service is to print their name and sign.

The Tyre Product Stewardship Scheme is a government supported scheme focused on responsible tyre disposal, and the sustainable management of end-of-life tyres. We have been an active member of the scheme since January 2023. Together, we aim to change the way end-of-life tyres are managed and make our industry more environmentally sustainable.

----------------------------------	---------------	------------------	-----------	------------

☐ A SERVICE CHECKLIST

☒ TRUCK (Approx 10,000km - 12,000km)

Check Fault Repair Log and carry out necessary repairs.		Check brake system for leaks (service and maxi).	
Grease all lubrication points.		Drain condensation from air tanks.	
Lift cab/bonnet, grease pivots, check condition and tension of belts.		Check steering joints and linkages.	
Check power steering for fluid levels and leaks.		Inspect for any obvious faults in suspension, structure or bodywork.	
Check/top up engine oil and coolant level.		Visual check of airbag suspension where fitted.	
Check transmission and differential for fluid levels and leaks.		Inspect wheel nuts and wheels for security, tyres for tread and inflation.	
Check driveline and universal joints.		Check number plates, all labels for due date condition and security.	
Check all lights and reflectors.		Check for visible exhaust emissions and lack of engine power.	
Check horn, instruments, gauges, wipers and washers.		Fault #/s Rectified (If Applicable)	
Check battery terminals and security.			
Inspect brake lining wear/travel and adjust if required.			

☒ TRAILER (Approx 6 monthly/annually)

Grease all lubrication points.	✓	Inspect for any obvious faults in suspension, structure or bodywork.	✓
Inspect brake lining wear/travel and adjust if required.	✓	Visual check of airbag suspension where fitted.	✓
Check all lights and reflectors.	✓	Check number plate, and all labels due date, condition and security.	✓
Check condition of air lines and electrical cable.	✓	Re-torque all "U" bolts and cross members.	✓
Inspect wheel nuts and wheels for security, tyres for tread and inflation.	✓	Fault #/s Rectified (If Applicable)	
Change oil in oil filled wheel bearings and check other wheel bearings.	✓		

Notes:

☐ B SERVICE CHECKLIST Including items from Checklist A

☒ TRUCK (Approx 20,000km)

All components of "A" Service.		Check wear/movement in pinman arm, drag arm, tie rods and spring shackles.	
Change engine oil and filters.		Replace or clean air cleaner as required.	
Change fuel filters and bleed and check for leaks.		Check trailer breakaway and maxi system.	
Test coolant and change water filters if required.			
Check battery electrolyte level, terminals and security.		Fault #/s Rectified (If Applicable)	
Check clutch linkage, clutch brake operation and adjustment.			
Check front steering hub oil level.			

☐ C SERVICE CHECKLIST Including items from Checklist A and B

☒ TRUCK (Approx 200,000kms or annually)

All components of "A" and "B" Services.		Change PTO Hydraulic filters.	
Change power steering oil and filter.		Service air dryers where applicable.	
Change transmission oil and filter (300,000km for Synthetic Oil).		Re-torque all "U" bolts and cross members.	
Change differential oil and filter.		Fault #/s Rectified (If Applicable)	
Change oil in oil filled wheel bearings and check other wheel bearings.			
Check clutch linkage, clutch brake operation and adjustment.			

The person completing the service is to print their name and sign.

SERVICE REPORT No. S 3073

Day: Wednesday Date: 16/02/2022

MCKENNA GROUP
PTY LTD

Vehicle/Trailer: Drake Tri Float	Rego: 257-QSZ	MCK Unit No. N/A	Kilms: N/A	Hours: N/A
----------------------------------	---------------	------------------	------------	------------

☐ A SERVICE CHECKLIST

☐ TRUCK (Approx 10,000km - 12,000km) ✓

Check Fault Repair Log and carry out necessary repairs.	✓	Check brake system for leaks (service and main).	
Grease all lubrication points.		Urain contamination from air tanks.	
Urn cab/hood, grease pivots, check condition and tension of belts.		Check steering joints and linkages.	
Check power steering for fluid levels and leaks.		Inspect for any obvious faults in suspension, structure or bodywork.	
Check top up engine oil and coolant level.		Visual check of airbag suspensions on whole fitted.	
Check transmission and differential for fluid levels and leaks.		Inspect wheel nuts and wheels for security, tyre for tread and inflation.	
Check driveline and universal joints.		Check number plates, all labels for due date condition and security.	
Check all lights and reflectors.		Check for visible exhaust emissions and lack of engine power.	
Check horn, instruments, gauges, wipers and washers.		Fault #/s Rectified (if Applicable)	
Check battery terminals and security.			
Inspect brake lining wear/travel and adjust if required.			

☒ TRAILER (Approx 6 monthly/annually)

Grease all lubrication points.	✓	Inspect for any obvious faults in suspension, structure or bodywork.	✓
Inspect brake lining wear/travel and adjust if required.	✓	Visual check of airbag suspension whole fitted.	✓
Check all lights and reflectors.	✓	Check number plates, and all labels due date, condition and security.	✓
Check condition of all lines and electrical cable.	✓	Re-torque all "U" bolts and cross members.	✓
Inspect wheel nuts and wheels for security, tyre for tread and inflation.	✓	Fault #/s Rectified (if Applicable)	
Change oil in oil filled shock bearings and check other wheel bearings.	✓		

Notes:

Fit all new mudflaps, replace all broken lights, weld 2 new flag holders on ramps, grease and adjust brakes

☐ B SERVICE CHECKLIST Including items from Checklist A

☐ TRUCK (Approx 20,000km) ✓

All components of "A" Service.		Check wear/movement in piston arm, drag arm, tie rods and spring shackles.	✓
Change engine oil and filters.		Replace or clean air cleaner as required.	
Change fuel filters and bleed and check for leaks.		Check trailer breakaway and anti system.	
Test coolant and change water filters if required.			
Check battery electrolyte level, terminals and security.		Fault #/s Rectified (if Applicable)	
Check clutch linkage, clutch brake operation and adjustment.			
Check front steering hub oil level.			

☐ C SERVICE CHECKLIST Including items from Checklist A and B

☐ TRUCK (Approx 200,000kms or annually)

All components of "A" and "B" Services.		Change PTO Hydraulic filters.	
Change power steering oil and filter.		Service air dryers where applicable.	
Change transmission oil and filter (200,000km for Synthetic Oil).		Re-torque all "U" bolts and cross members.	
Change differential oil and filter.		Fault #/s Rectified (if Applicable)	
Change oil in oil filled wheel bearings and check other wheel bearings.			
Check clutch linkage, clutch brake operation and adjustment.			

The person completing the service is to print their name and sign.

Heavy Vehicle Inspection Checklist

This checklist is used to complete a vehicle inspection that meets maintenance management standard 4 criteria(4). The inspection must be completed or supervised by a suitably qualified person whose name and signature must appear on the form.

Registration # 257-QSZ
Reason for Inspection Annual Inspection
Inspection Date 13/09/21
Inspection Time 12.30pm
Odometer N/A
Registration Expiry Date 13/03/2022

Owner's Details
Inspection location Delaney's Creek
Make Drake
Model Tri Low Loader
VIN # 6T9T25ABJY0AKG063
Vehicle Colour White

Cross out those items not applicable.

SERVICE REPORT No. S 2413

Day: Friday Date: 29/11/19

Vehicle/Trailer: <u>Drake Low Loader</u>	Rego: <u>257QSZ</u>	MCK Unit No.	Klms:	Hours:
--	---------------------	--------------	-------	--------

☐ A SERVICE CHECKLIST

☐ TRUCK (Approx 10,000km)

Check Fault Repair Log and carry out necessary repairs.	Check brake system for leaks (service and max).
Grease all lubrication points.	Drain condensation from air tanks.
Lift cab/bonnet, grease pivots, check condition and tension of belts.	Check steering joints and linkages.
Check power steering for fluid levels and leaks.	Inspect for any obvious faults in suspension, structure or bodywork.
Check/top up engine oil and coolant level.	Visual check of airbag suspension where fitted.
Check transmission and differential for fluid levels and leaks.	Inspect wheel nuts and wheels for security, tyres for tread and inflation.
Check driveline and universal joints.	Check number plates, all labels for due date condition and security.
Check all lights and reflectors.	Check for visible exhaust emissions and lack of engine power.
Check horn, instruments, gauges, wipers and washers.	Fault #/s Rectified (If Applicable)
Check battery terminals and security.	
Inspect brake lining wear/travel and adjust if required.	

☒ TRAILER (Approx 6 monthly/annually)

Grease all lubrication points.	✓	Inspect for any obvious faults in suspension, structure or bodywork.	✓
Inspect brake lining wear/travel and adjust if required.	✓	Visual check of airbag suspension where fitted.	✓
Check all lights and reflectors.	✓	Check number plate, and all labels due date, condition and security.	✓
Check condition of air lines and electrical cable.	✓	Re-torque all "U" bolts and cross members.	✓
Inspect wheel nuts and wheels for security, tyres for tread and inflation.	✓	Fault #/s Rectified (If Applicable)	
Change oil in oil filled wheel bearings and check other wheel bearings.	✓		

Notes:

☐ B SERVICE CHECKLIST Including items from Checklist A

☐ TRUCK (Approx 20,000km)

All components of "A" Service.	Check wear/movement in pitman arm, drag arm, tie rods and spring shackles.
Change engine oil and filters.	Replace or clean air cleaner as required.
Change fuel filters and bleed and check for leaks.	Check trailer breakaway and maxi system.
Test coolant and change water filters if required.	
Check battery electrolyte level, terminals and security.	Fault #/s Rectified (If Applicable)
Check clutch linkage, clutch brake operation and adjustment.	
Check front steering hub oil level.	

☐ C SERVICE CHECKLIST Including items from Checklist A and B

☐ TRUCK (Approx 200,000kms or annually)

All components of "A" and "B" Services.	Change PTO Hydraulic filters.
Change power steering oil and filter.	Service air dryers where applicable.
Change transmission oil and filter (300,000km for Synthetic Oil).	Re-torque all "U" bolts and cross members.
Change differential oil and filter.	Fault #/s Rectified (If Applicable)
Change oil in oil filled wheel bearings and check other wheel bearings.	
Check clutch linkage, clutch brake operation and adjustment.

☒ A SERVICE CHECKLIST

Due : Weekly or 5,000 to 8,000kms

	NOTES
Check Fault Repair Log and carry out necessary repairs.	Inspect brake lining wear/travel and adjust if required.
Grease all lubrication points.	Check brake system for leaks (service and maxi).
Lift cab/bonnet, grease pivots, check condition and tension of belts.	Drain condensation from air tanks.
Check power steering for fluid levels and leaks.	Check steering joints and linkages.
Check/top up engine oil and coolant level.	Inspect for any obvious faults in suspension, structure or bodywork.
Check transmission and differential for fluid levels and leaks.	Visual check of airbag suspension where fitted.
Check driveline and universal joints.	Inspect wheel nuts and wheels for security, tyres for tread and inflation.
Check all lights and reflectors.	Check number plates, all labels for due date condition and security.
Check horn, instruments, gauges, wipers and washers.	Check for visible exhaust emissions and lack of engine power.
Check battery terminals and security.	Note numbers of fault repairs rectified -

TRAILER

	NOTES
Grease all lubrication points	Inspect for any obvious faults in suspension, structure or bodywork.
Inspect brake lining wear/travel and adjust if required.	Visual check of airbag suspension where fitted.
Check all lights and reflectors	Check number plate, and all labels due date, condition and security
Check condition of air lines and electrical cable	
Inspect wheel nuts and wheels for security, tyres for tread and inflation	Note numbers of fault repairs rectified -

☐ B SERVICE CHECKLIST Including items from Checklist A

TRUCK & TRAILER (Approx 20,000kms)

	NOTES
All components of "A" Service.	Check front steering hub oil level
Change engine oil and filters.	Check wear/movement in pitman arm, drag arm, tie rods and spring shackles.
Change fuel filters and bleed and check for leaks.	Replace or clean air cleaner as required.
Test coolant and change water filters if required	Check trailer breakaway and maxi system
Check battery electrolyte level, terminals and security	Note numbers of fault repairs rectified -
Check clutch linkage, clutch brake operation and adjustment	

☐ C SERVICE CHECKLIST Including items from Checklist A and B

TRUCK & TRAILER (Approx 200,000kms or annually)

	NOTES
All components of "A" and "B" Services.	Change PTO Hydraulic filters.
Change power steering oil and filter.	Service air dryers where applicable.
Change transmission oil and filter (300,000kms for Synthetic Oil).	Re-torque all "U" bolts and cross members.
Change differential oil and filter.	
Change oil in oil filled wheel bearings and check other wheel bearings.	Note numbers of fault repairs rectified -

The person completing the service is to print their name and sign.
